- Silicon buttons pleasant to touch
- Fix code operation with cloning
- High brilliance leds
- Versions with 2 or 3 channels
- Available in the 433 MHz
- Double lithium batteries, simple to replace
  6V (3Vx 2)
- Version to be combined with UNI receivers (SIGNAL BOX UNI, RF UNI, FLEX UNI)

CODE: 23110565 NAME: SMART DUAL 3 channels 433 MHz (10 pcs)

## Simple and intuitive cloning

Hold for a few seconds the first 2 buttons of the receiving transmitter, as soon as the LED starts blinking rapidly the cloning function is enabled and you can select the button on which to clone the code of the other existing transmitter.

Once selected the button, just put the two transmitters next to each other and press the button of the existing transmitter.

At this point the LED will confirm the cloning.

The cloning function works only between SEA transmitters, even if they are of different models, provided they are of the same frequency.
