

The logo for Nice, consisting of the word "Nice" in white sans-serif font on a blue square background.

# EL-HR10 Handheld Remote

## The Single Zone Sensation

The Nice HR10 Wi-Fi Remote Control builds upon the successes of its predecessors – the HR2 and HR200 – and it continues to raise expectations of what a remote control can do. The HR10 is designed to place the elegant Nice experience in areas that were previously not a practical option – such as kid's rooms and guest rooms – as well as to create the ultimate single room control solution.

The Nice Configuration Software allows the HR10 to quickly be added to any Nice project. Interface templates for popular sources allow the HR10 to be personalized so all Nice customers get the most intuitive experience for their needs. The easy-to-use HR10 features an updated 802.11 b/g/n/Wi-Fi radio allowing it to be easily placed in all your projects. When the system design calls for an intuitive and easy remote control in a secondary area, the HR10 puts that control where it belongs – in the client's hands.
