WHY CHOOSE STARGATES?

Stargates has been selling gates in the UK for over 20 years and is now the largest supplier of aluminium gates in the country.

We have our own facility in the UK and stock, remodel and repair aluminium gates on-site. Over the years, we've developed a wealth of expertise and have supplied gates to hundreds of happy customers.

Every single gate that leaves our site is carefully inspected by a member of our expert team to make sure it meets our high standards. This ensures the gates our customers receive are in pristine condition and are ready to be installed, automated and used straight away.

With over two decades of experience, a fantastic range of high quality gates and a commitment to customer satisfaction, Stargates is the perfect choice for your gate installation. Give us a call on **033 022 34800** to find out more and make your gate the star of your home.

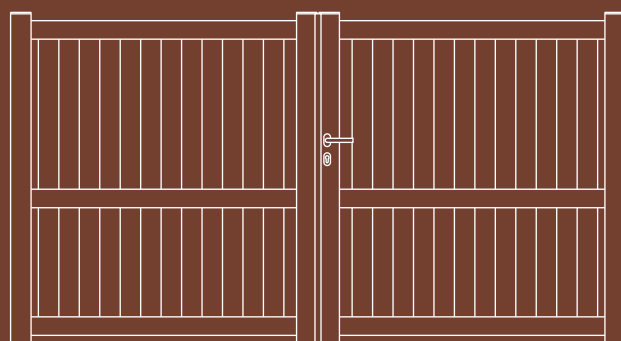

WHY CHOOSE ALUMINIUM?

Strong, durable and stylish, aluminium gates can withstand the worst the British weather can throw at them. The perfect way to enhance curb appeal and transform the look of your driveway, aluminium gates will make the ideal addition to your home.

Unlike wooden gates, aluminium won't warp, bend or split over time. Easy to maintain and offering a great choice of finishes, aluminium gives you all the benefits of wood without the maintenance.

If you love the look of timber but don't want to see your gates slowly succumb to wet rot or green algae, opt for a wood finish for your aluminium gates. Combining the natural beauty of wood with the strength and durability of aluminium, wood effect gates are the perfect choice for your home.

Thanks to recent advances in manufacturing, wood effect aluminium gates are now more affordable, more hard-wearing and more realistic than ever. Almost indistinguishable from natural timber, wood effect aluminium gates can give you the look and the durability you need for your home.

MATISSE

The Matisse is the perfect blend of elegance and innovation, designed to elevate the entrance of any property with its striking wood-effect finish and superior functionality. Crafted from high-quality aluminium, this gate offers the authentic appearance of natural timber while eliminating the common issues associated with wooden gates. Unlike traditional timber, The Matisse will never warp, bend, split, or rot, ensuring a flawless look and reliable performance for years to come.

KEY BENEFITS OF ALUMINIUM GATES:

Strength - Thanks to their modular extrusion construction, aluminium gates are both incredibly strong and incredibly light. This construction is guaranteed for five years.

Durability - Their tough coating protects aluminium gates from the elements and prevents the finish from fading over time. This protective layer is guaranteed for ten years.

Versatility - Aluminium gates can be finished in a wide range of textures and colours including realistic wood effect.

Low maintenance - Aluminium gates require virtually no maintenance and will stay looking pristine for years.

PICASSO

The Picasso is a statement of elegance and strength, designed to transform your driveway into a grand entrance. Featuring a distinctive double arch top, this gate combines timeless style with modern engineering for a look that is both classic and contemporary. Crafted from premium aluminium with a realistic wood-effect finish, The Picasso captures the natural beauty of timber without the drawbacks of traditional wooden gates.

RENOIR

The Renoir is a masterpiece of design and functionality, offering a striking entrance that blends classic elegance with modern durability. Featuring a graceful double arch top and a distinctive mixed infill design, this gate adds architectural interest while providing the strength and security you expect from a premium product. Crafted from high-quality aluminium with a realistic wood-effect finish, The Renoir captures the charm of natural timber without the maintenance headaches.

MATISSE

NO FUSS NO MUSS

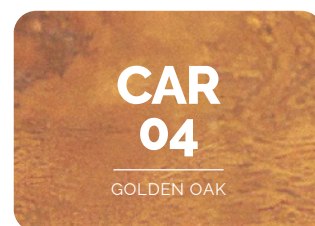

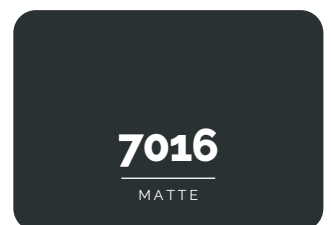

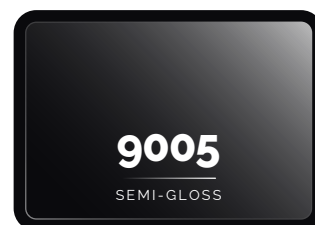

The Matisse solid board construction provides both privacy and security, creating a sleek and contemporary aesthetic that complements a wide range of architectural styles. Despite its robust design, The Matisse remains lightweight, making installation and operation effortless. This gate is not only durable but also environmentally responsible, as it is manufactured from recyclable materials, offering a sustainable choice without compromising on style.

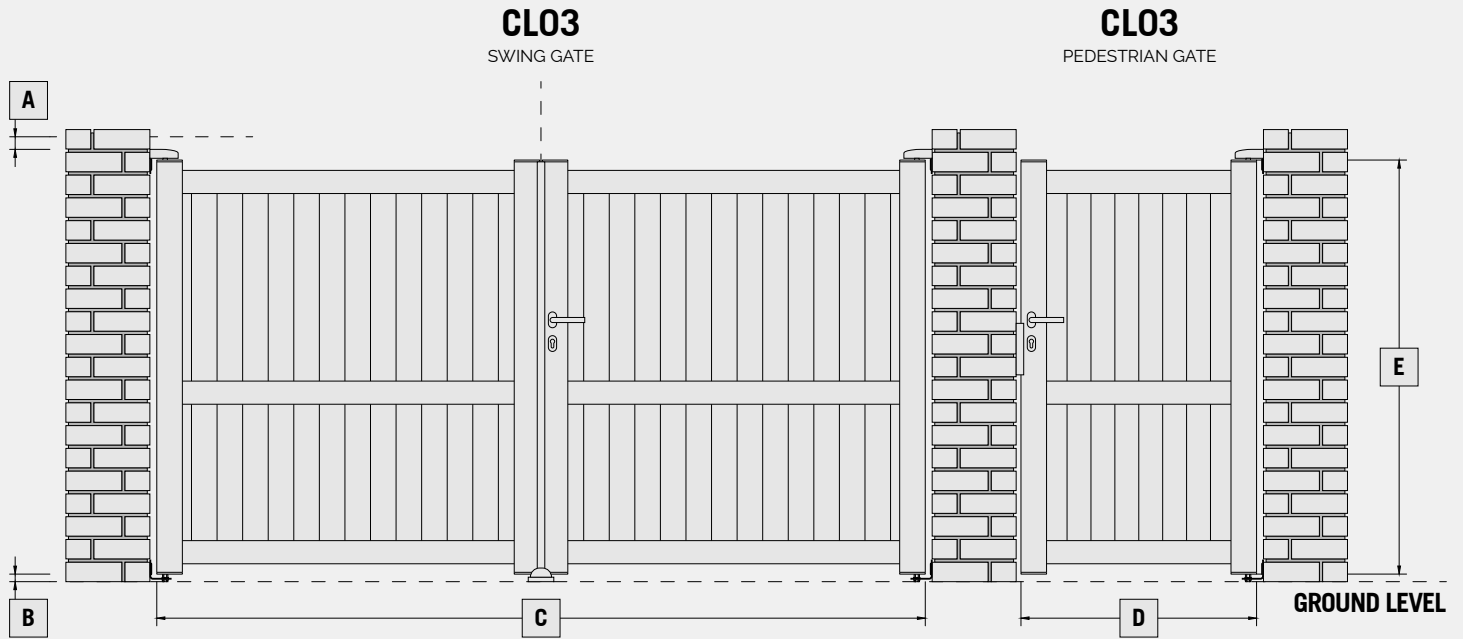

Available in two configurations, The Matisse can be supplied as a manual gate complete with a secure lock and handle for everyday convenience, or as an automation-ready option reinforced for compatibility with gate motors, allowing you to upgrade to automated access with ease. Please note that motors are sold separately. Designed to suit a 4-metre opening, The Matisse combines affordability with premium quality, delivering a realistic timber effect that is more convincing than ever before.

KEY FEATURES

- Solid boarded gate with straight top.
- Matching pedestrian gate with straight top.
- Sliding gate with double swing appearance.
- Made-to-measure and suitable for automation.

AVAILABLE FINISHES

- A** **HINGE REQUIREMENT** 100mm clearance needed above gate for hinge mount

- C** **SWING GATE WIDTH** Minimum: 2500mm Maximum: 5000mm
- D** **PEDESTRIAN GATE WIDTH** Minimum: 800mm Maximum: 1500mm
- E** **GATE HEIGHT** Minimum: 1000mm Maximum: 2200mm

WITH ITS TIMELESS DESIGN, LOW-MAINTENANCE FINISH, AND EXCEPTIONAL DURABILITY, THE MATISSE IS THE IDEAL SOLUTION FOR HOMEOWNERS SEEKING A SOPHISTICATED, PRACTICAL, AND ECO-FRIENDLY DRIVEWAY GATE THAT STANDS THE TEST OF TIME.

PICASSO

STYLE MEETS STRENGTH

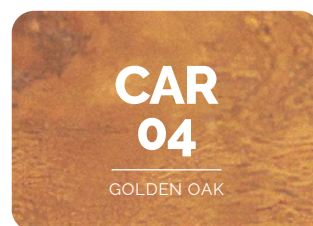

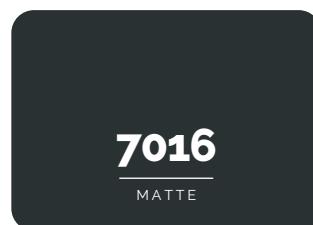

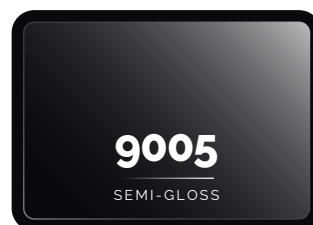

Its solid board construction ensures complete privacy and security while maintaining a refined aesthetic. Unlike timber, The Picasso will never warp, bend, split, or rot, making it an ideal low-maintenance solution for homeowners who value durability and design. The recyclable aluminium structure is lightweight yet exceptionally strong, offering easy installation and long-lasting performance in all weather conditions.

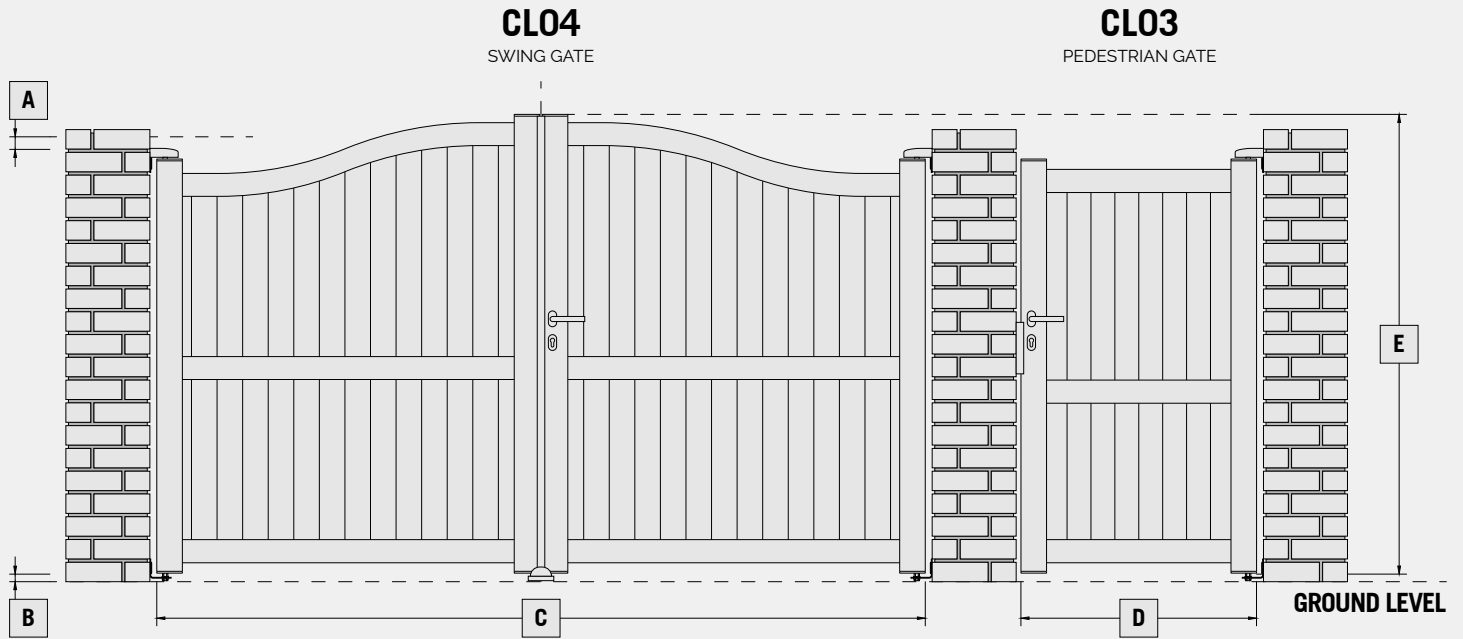

Available in two configurations, The Picasso can be supplied as a manual gate with a secure lock and handle for everyday use, or as an automation-ready option reinforced for compatibility with gate motors, giving you the flexibility to upgrade to automated convenience at any time. Please note that motors are sold separately. Designed to fit a 4-metre opening, this gate delivers an affordable, eco-friendly alternative to timber while achieving a level of realism that is more convincing than ever.

KEY FEATURES

- Solid boarded gate with double arch top.
- Matching pedestrian gate with flat top.
- Sliding gate with double swing appearance.
- Made-to-measure and suitable for automation.

AVAILABLE FINISHES

- A** **HINGE REQUIREMENT** 100mm clearance needed above gate for hinge mount
- B** **HINGE REQUIREMENT** 60mm clearance needed from ground level to leaf

- D** **PEDESTRIAN GATE WIDTH** Minimum: 800mm Maximum: 1500mm
- E** **GATE HEIGHT** Minimum: 1000mm Maximum: 2000mm

COMBINING SOPHISTICATION, PRACTICALITY, AND SUSTAINABILITY, THE PICASSO IS THE PERFECT CHOICE FOR THOSE WHO WANT A DRIVEWAY GATE THAT STANDS OUT FOR ITS BEAUTY AND RELIABILITY, YEAR AFTER YEAR.

RENOIR

PRIVACY WITH A VIEW

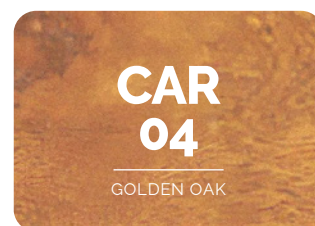

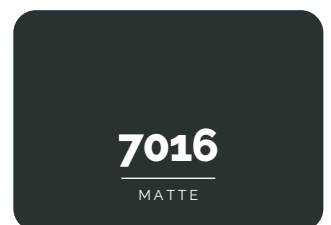

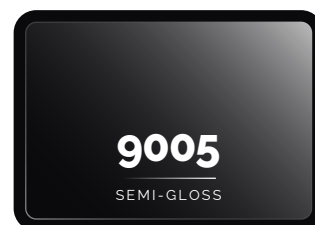

Its solid board construction ensures privacy and stability, while the mixed infill detailing introduces a refined, decorative touch that sets this gate apart. Unlike traditional wooden gates, The Renoir will never warp, bend, split, or rot, making it a long-lasting solution for any property. Lightweight yet robust, this gate is easy to install and built to withstand the elements, ensuring years of reliable performance.

Manufactured from recyclable aluminium, The Renoir is an eco-friendly choice for homeowners who value sustainability without compromising on style. Available in manual operation with a secure lock and handle or as an automation-ready option reinforced for compatibility with gate motors (sold separately), it offers flexibility to suit your lifestyle. Designed for a 4-metre opening, The Renoir combines affordability, durability, and timeless beauty in one exceptional product.

KEY FEATURES

- **Mixed infill gate with double arch top.**
- **Matching pedestrian gate with flat top.**

WITH ITS ELEGANT CURVES, REALISTIC TIMBER APPEARANCE, AND SUPERIOR CONSTRUCTION, THE RENOIR IS MORE THAN A GATE—IT'S A STATEMENT OF SOPHISTICATION AND PRACTICALITY THAT WILL ENHANCE YOUR PROPERTY FOR YEARS TO COME.

ACCESS & AUTOMATION

Our gates can be made-to-measure and are designed with automation in mind with re-enforced profiles for motorisation. Fitting automated gates to your driveway is an excellent way to increase the security of your home. You reduce the risk of an opportunist thief walking up the drive and make it much more difficult for someone to gain access through locked gates. They have a strong aesthetic appeal and can make your life more convenient.

The versatility of the gate designs ensures multiple mounting options for swing gate installations of any kind, Even allowing for additional sliding gate automations including; two-way opening and an imitation swing gate look sliding leaf.
