

# Product Information

## **LISENS** *scan* – What is it ?

- New Non-Contact Safety Radar System
- Developed in house (controller)
- Utilises industry proven FMCW radar  
Applicable to Doors/Gates/Barriers
- Can replace safety edges, PEC, Loops

Two versions will be launched:-

- “Comfort” (EN12453 Type D) – Loops/PEC’s
- “Safety” (EN12453 Type E) – Full SAFETY

# Key benefits of LISENS scan

0.4 – 13 Meters Range

Up to 6 Sensors Per System  
(with 1 Controller)

Wi-Fi Configuration on-board

Webserver interface (not  
limited to smartphone's)

Insensitive to all weather conditions

Works with skirts & pendulum supports

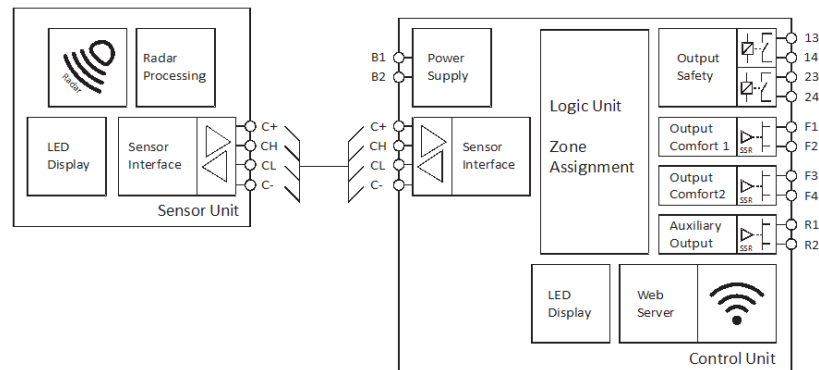

# Product Information

## LISENS *scan* – Information at a glance

Specification	
Sensors in series connection	Up to 6
Detection zone	13m detection zone (120° Spread, 40° Elevation)
Safety Outputs	2 (Dual output contacts, 2 relays)
Safety Output type	8k2/FSS (semiconductor, self tested)
Comfort Outputs	Up to 3 relays
Comfort Outputs type	Solid State Relay (configurable NO/NC)
Safety Category	(EN 12453 Type “D” – Comfort version / “E” Safety version)
Performance Level	PL D, cat2, self-testing
Safety Integrity Level	SIL2
Reaction Time	Max. 100ms
Supply Voltage	10-30V DC or 14-26.4V AC

CH	CAN connection Sensor
CL	CAN connection Sensor
C-	CAN connection Sensor
F1	Comfort Zone 1 Relay – NC/NO
F2	Comfort Zone 1 Relay – NC/NO
F3	Comfort Zone 2 Relay – NC/NO
F4	Comfort Zone 2 Relay – NC/NO

How is it setup ?

Web Interface through Wi-Fi HotSpot – Any Wi-Fi enabled device

- Traffic barrier (Example)
- Safety zone width = Size in cm
- Safety zone length = Size in cm
- Barrier arm length = Size in cm
- Virtual loop 1 CZ 1 = Size & gap in cm
- Virtual loop 2 CZ 2 = Size & gap in cm
- Skirt length & gap's = in cm
- Once all details input, run calibration
- Setup complete !

# Example Installations

Adaptable to many scenarios !  
Single & Multiple Sensors – Skirts +  
Pendulum Supports

# LISENS scan – Ordering Information

Planned availability:

Comfort version – June 2025

Safety version – Estimated Q4 2025

## Ordering Information LISENS scan (Comfort-Version)

Article no.	Description
2302-0300	LISENS scan CA-B-Set 1, 1 sensor, bracket & control unit (EN12453 Type D)
2302-0310	LISENS scan SUC1-1240E, sensor inc. bracket (Type D)
2302-0320	LISENS scan CUC2-2BA, control unit "comfort version"

## Ordering Information LISENS scan (Safety-Version)

Article no.	Description
2302-0350	LISENS scan CC1-B-Set 1, 1 sensor, bracket & control unit (EN12453 Type E)
2302-0330	LISENS scan SUC2-1240E, sensor inc. bracket (Type E)
2302-0340	LISENS scan CUC2-2BC1, control unit "safety version"
