Ins-30118 Net2 desktop reader USB - MultiFormat

Paxton

Technical Support

📞 01273 811011   ✉ support@paxton.co.uk

Technical help is available: Monday - Friday from 07:00 - 19:00 (GMT)
Saturday from 09:00 - 13:00 (GMT)

Documentation on all Paxton products can be found on our website - http://www.paxton.co.uk/

Desktop Reader

The desktop reader is designed to sit next to the PC. It is used for adding tokens to a Net2 system and also for identifying lost cards. Additional workstations can also have desktop readers.

With the Net2 software running, any new token presented above the desktop reader will cause the new user wizard to appear with the card number displayed. Additional user details can then be entered.

If the token is already known to the system, the relevant users' record will appear.

The reader will accept:

Paxton tokens
Paxton hands free tokens (passive mode)

Mifare® Classic protocol (ISO 14443A)
Mifare® Ultralight /C
Mifare® Desfire

EM4100 tokens
Hitag 1 tokens

Installation

Download the latest version of Net2 software at: http://paxton.info/1438 before commissioning this product.

The power for the unit is supplied via the USB cable. No additional power supply is required.

Plug the reader into a convenient USB port on the PC using the supplied USB cable.

Stop and then restart the Net2 server program. The device will now be available to the Net2 program.

Specifications			
Environment	Min	Max	
Operating temperature	0 °C	+55 °C	
Waterproof			No
Electrical	Min	Max
